---

All,

We have received a number of questions from LWG members regarding DEQ review comments on the LWG FS Source Control Table.

If you receive a question from a RP you are working with, please route the request through me. At this point, we are asking the individual LWG members to work within their LWG system to develop a single set of questions/challenges to our edits. It is my expectation that LWG will provide these to EPA, and EPA will pull us into the discussion to reach agreement on table edits. By asking the LWG to manage the questions collectively, it should limit the # of times, we have to pick this up.

I have discussed this with Nicole LaFranchise, who is the lead for the LWG team on this, and she is ok with us directing members back to her work group.
